in your subconscious and
holding you back.

Learn how to magnetically release these dense,
negative energies and set yourself free!

What is Muscle Testing?

Muscle testing, also called "applied kinesiology", is simply a method of seeking answers. It's a way of using your body's energy and intuition to find answers to questions and help guide you to solutions and action. Intuition is the natural ability or power that makes it possible to know something without any proof or evidence; a feeling that guides a person to act a certain way without fully understanding why.
